### Item Discussed

**Subject:** ML-014

11/29/04 AM – Mr. Holmes said that there are no active mines directly under the proposed temporary housing site. There is some mining activity north of the site, but in his estimation it is too far away to impact the site. There are also no abandoned mine lands at the site, though he suggests that we contact the AML office as well. I notified him that we have already been in contact with Joe Zambelli in AML.

### Item Discussed

**Subject:** ML-014

11/23/04 AM – Mr. Ivy stated that it was his understanding that water hook up is available on the site and sewer is available within one-half mile of the site. He noticed that the topo lines indicate that the site may be steep, but does not have any other concerns with locating temporary housing at this site.
